What's New

Version 1.4.00

These topics describe the new features and enhancements added in this version of *PATROL for Tivoli Workload Scheduler by OTL Software*.

Compatible with BMC ProactiveNet Performance Management v2.8

The BMC ProactiveNet Performance Management Portal integration is rebuilt using the latest SDK for Portal v2.8 and threshold settings are more appropriately configured.

Support for BMC Installation Utility

Additional installation files are included in the download to support *Installation Utility*.

What's Changed

Version 1.4.00

These topics describe the changes included in this version of *PATROL for Tivoli Workload Scheduler by OTL Software*.

Updated Documentation

The User Guide is updated to describe all the above new features.

Known Issues and Workarounds

This section lists all known issues with this release of *PATROL for Tivoli Workload Scheduler*, and their workarounds.

The *PATROL for Tivoli Workload Scheduler* does not support `csh`. The KM and Patrol user accounts on UNIX platforms must not be configured to use `csh`.

If the *PATROL Agent* version on the managed system is earlier than V3.5.30, *PATROL Central Consoles* does not display KM icons or images correctly.

If the *PATROL Central - Web edition* version is earlier than V7.5.50, the context sensitive online help gives an error message.

Corrected Problems

Version 1.4.00

There are no problems reported in the previous release of *PATROL for Tivoli Workload Scheduler* by OTL Software.

Open Problems

There are no problems open for this release of *PATROL for Tivoli Workload Scheduler* by OTL Software.

Product Installation

Installation instructions are provided in *PATROL for Tivoli Workload Scheduler* by OTL Software *User Guide*.
