What's New

Version 1.2.00

These topics describe the new features and enhancements added in this version of *PATROL for Veritas File System by OTL Software*.

Compatible with BMC ProactiveNet Performance Management v2.8

The BMC Portal integration is rebuilt using the latest SDK for Portal v2.8 and upgrades if a previous KM version is found on the BMC Portal.

Support for Linux

The KM is modified to support all Linux platforms.

Support for BMC Installation Utility

Additional installation files are included in the download to support *Installation Utility*.

What's Changed

Version 1.2.00

These topics describe the changes included in this version of *PATROL for Veritas File System by OTL Software*.

Updated Documentation

The User Guide is updated to describe all the above new features.

Known Issues and Workarounds

This section lists all known issues with this release of *PATROL for Veritas File System*, and their workarounds.

The *PATROL for Veritas File System* does not support *csh*. The KM and Patrol user accounts on UNIX platforms must not be configured to use *csh*.

If the PATROL Agent version on the managed system is earlier than V3.5.30, PATROL Central Consoles does not display KM icons or images correctly.

If the PATROL Central - Web edition version is earlier than V7.5.50, the context sensitive online help gives an error message.

Corrected Problems

Version 1.2.00

The following problems were reported in earlier releases and have been corrected in this version of *PATROL for Veritas File System*.

Problem Number	Corrected Problem	New Behavior
3180	Portal solution container is labelled "VFS Solution"	Corrected to read "Veritas File System - Agent-based".
3261	Kernel messages are not scanned if initial scan fails	Corrected to scan all messages.

Open Problems

There are no problems open for this release of *PATROL for Veritas File System* by *OTL Software*.
